

After Saving:

```
1  /**
2   * Description about the package itself.
3   *
4   * @author Ramon Esteve Cuevas
5   * @created 13/03/2017
6   */
7  create or replace package body sd_consolidation_js as
8  --
9  --
10 --
11 --
12 procedure calculate_mitigation_factor( p_loaddate in date ) as
13 begin
14     null;
15 end calculate_mitigation_factor;
16 --
17 --
18 end sd_consolidation_js;
```

After Closing, Refresh and Re-Opening:

```
1  create or replace package body sd_consolidation_js as
2  --
3  --
4  --
5  --
6  procedure calculate_mitigation_factor( p_loaddate in date ) as
7  begin
8      null;
9  end calculate_mitigation_factor;
10 --
11 --
12 end sd_consolidation_js;
```

This is how it should look like:

```
create or replace package body sd_consolidation_js as
/**
 * Description about the package itself.
 *
 * @author Ramon Esteve Cuevas
 * @created 13/03/2017
 */
--
g_scope_prefix constant varchar2( 31 ) := lower( $$plssql_unit ) || '.';
```
